

## November 2018

### Carolinas IT is Ranked Among the Top 50 Fastest-Growing Companies in the Triangle

[Carolinas IT](#) is once again ranked among the fastest-growing companies in the Triangle as part of the Triangle Business Journal's Fast 50 List. Winners were announced in order of ranking at the 26th annual event on Monday, November 5.

The Fast 50 companies were selected and ranked based on a formula that counts revenue growth and profitability in the preceding three years (2015-2017).

### Privileged Access Management - PAM

If you follow us on social media, you saw a lot of activity about PAM last month. PAM is [Privileged Access Management](#) and is a secure way to monitor all of your privileged accounts across your organization.

Together with Thycotic, we offer a Privileged Access Management tool that includes an enterprise-class password management vault to secure sensitive passwords on-premises and eliminate internal and external threats with real-time session monitoring, recording, and keylogging. The tool also meets compliance mandates such as HIPAA, PCI, SOX, NIST, and will produce full audit reports on vault activity.

Take the [free online risk assessment](#) to determine the risks associated with your privileged accounts. Once you've completed the survey, you'll receive a PAM Risk Assessment score and a follow up report via email with recommendations on how to manage and lower your privileged account security risks.

### Employee News

**Chris Walters**, one of our engineers on the Cloud Services team, passed his VCP 6/Data Center Virtualization exam. This industry-recognized certification validates that Chris can administer and troubleshoot vSphere V6 infrastructures, leveraging best practices to provide a scalable and reliable virtualization platform for our clients. This is especially helpful as many of our clients are now upgrading to vSphere V6 in their environments.

**Jeff Auerbach** is now a Client Relationship Manager on our Sales team. Jeff has been with Carolinas IT for five years and will now be working with existing clients to improve business operations with IT solutions.

**Laura Brandewie** is now a Solutions Architect on the Sales team. Laura has been with Carolinas IT for four years as a Project Manager and is excited to move back into a role she was in before she came to our company.

## Refresh Your Hardware With Carolinas IT and Lenovo

Ordering and customizing machines for your business can be tedious. Updating the machines every 2-3 years with the appropriate programs and applications is a process that must be carefully monitored and maintained.

Carolinas IT can help you refresh your machines based on the lifecycle you choose. We offer specialized pricing on top seller models of Lenovo machines, and we will work with you on establishing customized configurations for your machines.

- Optimize your workforce with the latest technology available from Lenovo
- Customized configurations designed and implemented by Carolinas IT
- Financing options available

For more information on Lenovo products and pricing, please contact your account manager today.

## Employee Spotlight

**Sarah Calhoun** is one of our Service Coordinators on the Managed Services team. She's been with our company for about 9 months. As a dog mom, her favorite part of her job is being able to have dogs at the office. "I love being part of this team!" Sarah says. "We have an amazing group of individuals that make it fun to come into work every day.

Sarah is originally from New Hampshire and is a proud New England Patriots and Boston Red Sox fan. She enjoys hiking in the mountains, going to sporting events with her husband and "finding any excuse to wear her Storm trooper costume."
